### **HYFLUX SECURES RMB 237 MILLION WORTH OF WATER PROJECTS IN CHINA**

---

Hyflux Ltd (“Hyflux”) is pleased to announce that its wholly owned subsidiary, Newspring Utility Pte Ltd (“NUL”), has been awarded the following three water treatment projects worth about RMB 237 Million in China.

#### **(1) Potable Water Treatment Plant in Xiajin, Shandong Province, China**

Under a 28-year concession agreement, NUL shall exclusively design, construct, operate and maintain a 50,000 m<sup>3</sup>/day potable water treatment plant. The estimated project value is RMB 102 million and the plant is expected to be completed by end of 2008.

NUL is granted first right to negotiate for the extension of the concession agreement upon its expiry.

#### **(2) Waste Water Treatment Plant in Shuangjie town, Beichen District, Tianjin City, China**

The People’s Government of Beichen district has granted NUL an exclusive 30-year concession to design, construct, build, operate and maintain a 50,000 m<sup>3</sup>/day waste water treatment plant that has a water recycling capability to produce up to 30,000 m<sup>3</sup>/day of recycled water in Shuangjie town, Beichen District. The estimated project value is RMB 135 million and the project is expected to be completed by early 2009.

Similar to the projects above, NUPL is granted the first right to negotiate for the extension of the concession agreement upon its expiry.

With the above 2 projects, the Group has now under operation and construction 22 municipal projects in China. These projects will be funded by Hyflux Group from its existing resources and are not expected to have a material financial impact for the current financial year.
