PRESS RELEASE

INTER-ROLLER FORGES AHEAD WITH SECOND PROJECT IN NORTH AMERICA

SINGAPORE, 18 July 2008 - Inter-Roller Engineering Limited (“Inter-Roller”) is awarded a CAD10 million (SGD13.5 million) contract to design and install a Baggage Handling System (“BHS”) for the Calgary International Airport, Canada. This is the Company’s second BHS project in North America. It is a result of the Company’s continuous effort in expanding its foothold in North America after securing its first project in Winnipeg last year.

“This award is of particular importance to us as it’s a recognition of our capabilities in the North America. We will ride on this opportunity and continue to build our presence in this region” said Mr Oon Chong Howe, CEO of Inter-Roller Engineering Limited.

The project covers the design, supply and installation of mechanical, electrical and control systems that will integrate with 100% Hold Bag Screening. It includes the security tracking, baggage sortation, automatic baggage tag scanning, manual encoding and high-level control systems.

Slated to complete in mid-2009, Inter-Roller’s system will help to increase the trans-border baggage handling capacity of this airport.

None of the directors has any interest, direct or indirect, in the above contract. The directors are not aware of any substantial shareholder having interest, direct or indirect, in the abovementioned contract.

About Inter-Roller

Inter-Roller, a Singapore Mainboard-listed company, is one of the world's leading companies in the provision of airport logistics systems. Our systems are, namely, the Baggage Handling System, Air Cargo Handling System, In-Flight Catering System and Express Courier Handling System, and our services encompass design, engineering, manufacturing, installation and maintenance support. Headquartered in Singapore and with subsidiaries in Malaysia, China, the Middle East and United Kingdom, Inter-Roller has completed more than 100 projects spanning six continents and more than 25 countries.
