INTER-ROLLER'S NEW PROJECTS IN INDIA - AMRITSAR AND TRIVANDRUM AIRPORTS

SINGAPORE, 1 SEPTEMBER 2008 – The Company is pleased to announce that it has been awarded a contract worth S\$5.1 million to provide Baggage Handling Systems (“BHS”) to Amritsar and Trivandrum Airports in India. These projects involve relocation and installation of arrival and departure systems in both airports. In order to meet the rising passenger traffic, the Company has been commissioned to complete these projects within the next 6 months.

Inter-Roller's presence in India has grown steadily over the last few years. Since the beginning of 2007, Inter-Roller has successfully secured contracts, both BHS and Air Cargo Handling Systems, in some 14 airports in India, making it the foreign company with one of the most BHS installations in India over the recent years.

About Inter-Roller

Inter-Roller, a Singapore Mainboard-listed company, is one of the world's leading companies in the provision of airport logistics systems. Inter-Roller designs, engineers, manufactures, installs and supports airport logistics systems such as Baggage Handling System, Air Cargo Handling System, In-Flight Catering System and Express Courier Handling System. Headquartered in Singapore and with subsidiaries in Malaysia, China, the Middle East and United Kingdom, Inter-Roller has completed more than 100 projects spanning six continents and more than 25 countries.
