

Press Release

AZTECH 'INNOVATES TO CONNECT' FOR DIGITAL LIVING AT COMMUNICASIA 2007

Singapore, 15 June 2007 – Singapore Stock Exchange Main Board Listed Aztech Systems Ltd (“Aztech”), a data and voice communications solutions provider will be showcasing its latest modems/routers, wireless networking, HomePlug and Skype™ products at CommunicAsia 2007, the info-communications tradeshow to be held at Singapore Expo from 19th to 22nd June.

Booth venue: Singapore Expo, Hall 4, D2-07

Date: 19th to 22nd June 2007

Time: 10.30am to 6pm

“Supported by its new brand strategy “Innovate to Connect”, we unveil our total solutions for the pulsating infocomm sector. We look towards allowing our customers to understand how all our products, such as our modem/routers, HomePlugs, wireless networking products, Skype™ products and IP phones come together to connect and benefit their lives in today’s digital world,” said Chairman and CEO, Mr. Michael Mun.

Taking centre stage at its booth (Hall 4, D2-07) are two giant networking walls, to demonstrate the synergy in all Aztech products in providing a holistic approach to digital living for the homeowner, and better business communications for small medium enterprises.

Growing expectations to simplify digital convergence amongst visitors at CommunicAsia 2007 will prove essential for Aztech to feature its star product, the Aztech 200Mbps HomePlug, which easily supports full multimedia home networking such as High Definition (HD) and Standard Definition (SD) video distribution, whole-house audio, Voice over IP (VoIP) and high speed Internet transfer. The Powerline adapter provides the necessary bandwidth and is the easiest, fastest cable-free solution for data distribution in homes. Visitors to the booth will witness the simplicity in using HomePlug to facilitate Internet Protocol television (IPTV) in a simulated demonstration.
