

Aztech Announces the Appointment of Vice President of R & D

Singapore, 22nd June 2006 - Aztech Systems Ltd, a global leader in data communication, voice communication, multimedia, contract manufacturing and retail distribution is pleased to announce the appointment of Mr Dixon Hong as Vice President of Research and Development, who will be responsible for the Group's new R&D projects. Mr Hong will report directly to Mr Michael Mun, CEO/President of the Group.

Mr Hong has previously served in Aztech as Vice-President of R&D, Singapore (2004 – 2005) and as Vice-President of Thatweb Solutions Pte Ltd, a wholly owned subsidiary of Aztech (1995 – 2003). Mr Hong graduated from Fu Dan University in Shanghai, China and subsequently obtained his Masters in Computer Science from New York University, in New York, USA. He is also a visiting Co-Researcher in Keio University, Tokyo, Japan.

Mr Hong's primary responsibility will be to identify and establish new research and development alliances, both local and overseas for the development of new products and to spearhead these projects from product conceptualization till completion of the development work. Mr Hong has been also tasked to recruit qualified engineers to work on these new projects. With its involvement in collaboration projects and expansion of its R&D resources, the Group targets to increase its product offerings and also build up its own capabilities in the relevant sectors.

"With Dixon's new appointment, our research and development efforts are enhanced as we look for both internal and external resources to roll-out new products. With his extensive knowledge and experience, he is the right candidate to manage these projects. His presence in the organization will boost the current R&D activities of the Group as we continue to expand our business and market presence around the world." said Mr Michael Mun, CEO and President of Aztech Systems Ltd.
