

Press release

AZTECH ENABLE TRIPLE PLAY SOLUTIONS AT BROADBAND WORLD EUROPE

SINGAPORE, 9th October 2006 – Singapore Exchange Mainboard listed, Aztech Systems Ltd (“Aztech”), a global leader in voice and data communications, multimedia, contract manufacturing and retail distribution, is introducing its HomePlug Audio/Video 200Mbps Ethernet adapter and All-in-one ADSL2+ DECT VoIP Residential Gateway to the European market. Aztech will be showcasing its latest products at the Broadband World Forum, Europe in Paris, 9~12th October. Supported by a wide diversity in products ranging from ADSL products to IP Telephony solutions, the Group is focused on enabling triple play solutions catered for high-speed data, voice and audio distribution in homes or small/medium offices.

“Our new DSL3000RG All-in-One ADSL2+ DECT VoIP Residential Gateway together with the HL108E HomePlug Audio/Video 200Mbps Ethernet adaptor form the most comprehensive Triple Play solution for today’s Digital home. More importantly, it is targeted towards Telcos and Internet Service Providers to offer integrated video, voice and data service plans for the increasingly demanding subscribers looking for greater value beyond simply high speed Internet access,” said Mr. Martin Chia, Senior Vice President, Sales And Product Marketing of Aztech Systems.

Last year alone, the European sector proved to be the largest sales market for the Group and accounted for more than 40% of overall turnover. The European market is also seeing high adoption of Homeplug technology where Aztech is focusing and pushing this technology successfully in Europe.

Aztech 200Mbps Ethernet HomePlug AV

Aztech **HL108E** Ethernet HomePlug Audio/Video 200Mbps offers superior bandwidth performance necessary to drive next-generation home entertainment applications including High Definition (HD) video distribution and Broadband TV (IPTV). Faster and more robust, it provides the ultimate high-speed transmission for digital home entertainment. It is designed to provide the best connectivity at the highest Quality of Service (QOS) in home networking technology.
